WELCOME NOTE

AHMED SALEH BAABOOD
Executive Chairman

MELWIN D'CUNHA
CEO

We would like to extend a warm welcome to all the Sponsors, Supporters, Exhibitors, Partners, Visitors and Media to the 10th Edition of OFSEC 2026 - Oman's Only and Most Comprehensive Exhibition on Fire, Safety and Security.

OFSEC is designed to meet the needs of the local, regional and international markets by linking practitioners, suppliers, distributors and manufacturers from the fire, safety and security industry, with key decision makers from the government and private sectors, making it a definitive networking platform, where new projects and partnerships are initiated and visionary objectives are implemented. This event also aims to create synergy and strengthen the collaboration between the authorities and the industries.

The main objective of the Exhibition is to encourage productive discussion, networking and exchange of knowledge between the Government, industrial and commercial entities, aviation, construction, infrastructure, transportation, manufacturing, oil and gas and utilities sectors.

We have carefully selected the finest industry experts to speak at this Summit, thereby giving everyone the opportunity to hear first-hand experiences from ministries, research institutions and industry leaders. The Agenda is meticulously designed with elaborate case study presentations, networking meetings, problem solving sessions and interactive panel discussions to focus on current market trends, technological advancements based on Fire and Safety Standards and regulations.

We wish one and all a successful participation in the Exhibition. We are confident OFSEC will serve as a platform to strengthen local and international business engagement, encourage investment and continuous growth.

AGENDA

SUMMIT DAY - 1

10:00

WELCOME NOTE

10:10

Rafah Salim Al-Mahrouqi
Fire & Safety Inspector
Petroleum Development Oman (PDO)
Topic: Fire and Life Safety Assurance

10:30

Eng. Mohammed Saud Al Balushi
Head of HSE
Security & Safety
Topic: Leadership and Decision-Making in Emergency Management for Critical Facilities

10:50

Salim Al Riyami
Lead Emergency Planning
Oman Airports
Topic: Enhancing Emergency Response Through Technology

11:10

Matthias Steinfert
Specialist Instructor & Consultant
RelyOn
Topic: Train the Decision, Not Just the Drill

11:30

Nasser Mohammed Said Al Harthy
Fire Officer
Petroleum Development Oman (PDO)
Topic: PDO Fire & Rescue - Resources & Modernization

AGENDA

11:50 PRAYER BREAK

12:10

Hafsa Al Balushi
Director of Spatial Strategy Department
Ministry of Housing and Urban Planning
Topic: Oman Code

12:30

Mathews Varughese
Regional Business Development Manager - META,CIS
KIDDE GLOBAL SOLUTIONS
Topic: Modernizing Emergency Response in the Region:
The Rise of Mass Notification Systems

12:50

Ghaith Bakir
Senior Regulatory Engineer-MEA
UL Solutions
Topic: Prove It" in the Built Environment: How to De
Risk Sustainable & Smart Buildings with Independent
Testing, Certification and Verification

13:10

Dipl. Ing. Peter M. Hamel
Country Manager
Professional Stars Energy Services L.L.C.
Topic: Impact of Cognitive Bias on Occupational Health
and Safety Programs

13:30

Mohamed Salaheldin
Head of Engineering
LIFECO
Topic: The AI Data Centre Revolution: New Power, New
Risks, The Right Fire Protection

AGENDA

13:50

Abdullah Al-Fazari
HSSE Operation Acting Manager
Nama Electricity Distribution
Topic: AI-Enabled Electrical Safety: Integrating Safety Rules,
Digital Workflows and Predictive Risk Management in
Critical Distribution Infrastructure

14:10

Allan Bilek
Country Manager - GCC, Levant & East Africa
Seagate Technology

14:30

CLOSING REMARKS

- END OF CONFERENCE - DAY - 1

AGENDA

SUMMIT DAY - 2

10:00 WELCOME NOTE

Keynote Speaker

10:10  **Afaf Jasim Almheiri**
Executive Director, Institutional Leadership and Excellence
General Command of Dubai Civil Defence, UAE
Topic: Safety as an Investment: The Impact of Safety on the Sustainability of Investment and the Economy

10:30  **Waleed Al Mahrizi**
HSSE Support Principal
OQ Alternative Energy
Topic: Psychological Safety During Abnormal Situations

10:50  **Sultan Khalifa Said Alsaadi**
Security & Access Control Team Lead
Sohar Port & Free Zone
Topic: Security Planning as a Strategic Imperative for Critical Infrastructure

11:10  **Muwada Al Aghbari**
Fire Safety Engineer
Petroleum Development Oman (PDO)
Topic: Risk-Based Pre-Incident Planning: Bridging Fire Safety Studies and Emergency Preparedness

AGENDA

11:30  **John Davison**
Managing Director
F-24 UK Limited
Topic: Beyond Security Detection: Turning Threat Intelligence into Coordinated Auditable Actions

11:50 PRAYER BREAK

12:10  **Daniel Ford**
Associate Director - Fire and Life Safety
WSP
Topic: Fire Protection Systems - How Can The Fire Protection Industry Reduce Water Use?

12:30  **Dr. Salim Ali Al Harthi**
Director
Technical Development for Trade & Investment (TDI)
Topic: Beyond Compliance: How HSE Practices Drive Organizational Performance and Safety Culture

12:50  **Abhishek Ravindran**
Sales & Business Development
Keenfinity FZCO
Topic: The future of Public Safety & Sound - Bosch PRAESENSA Public Address System

13:10  **Mohamed Aiyaz S I**
Regional Sales Manager
AP Sensing GmbH
Topic: Distributed Fiber Optic Sensing (DFOS) for monitoring of Critical Assets

AGENDA

13:30

Syed Al Hasan

Head of HSES (Director)

Muriya Tourism Development - Orascom Development Holding

Topic: Integrated Tourism Emergency Resilience Framework (ITERF)

13:50

Dr. Mohammad Mehdi Shirmohammadi

Director

Termeh Filtration Solutions FZ-LLC

Topic: Beyond the Respiratory Mask: From Filtration Science to Proper Selection, Fit Testing and Effective Protection

14:10

CLOSING REMARKS

- END OF CONFERENCE - DAY - 2

SPEAKERS

Abdullah Al-Fazari

HSSE Operation Acting Manager

Nama Electricity Distribution

Abdullah Al-Fazari is an HSSE professional with over 17 years of experience in electrical infrastructure, power distribution, and occupational health and safety. He serves as Section Head of HSSE at Nama Electricity Distribution and has also undertaken Acting HSSE Operations Manager responsibilities. He holds a BSc in Electrical Power Engineering, NVQ Level 6 in Occupational Health and Safety, NEBOSH International General Certificate, IOSH certification, and ISO Lead Auditor qualifications. His professional interests include electrical safety, risk management, incident prevention, contractor safety, digital transformation, and applying artificial intelligence to strengthen safety compliance, operational assurance, and resilience across electricity distribution networks.

Abhishek Ravindran

Sales & Business Development

Keenfinity FZCO

Abhishek Ravindran is a Regional Sales and Business Development professional responsible for the Oman market, specializing in Bosch Public Address and Conference Systems and Avonic solutions. With over 20 years of experience in the safety and security systems industry, he brings extensive expertise in business development, product management, account management, project management, and technical training. His professional strengths include developing business opportunities, building strategic customer relationships, managing key accounts, and driving market growth through effective sales strategies and solution-oriented approaches. Abhishek Ravindran holds a Bachelor of Engineering (B.E.) in Electronics and Communications Engineering from Sir M. Visvesvaraya Institute of Technology (Sir MVIT).

Afaf Jasim Almheiri

Executive Director, Institutional Leadership and Excellence

General Command of Dubai Civil Defence, UAE

Afaf Almheiri is a senior government leader in institutional leadership and excellence, with more than 20 years of experience in strategic planning, foresight and innovation. She has helped design and deliver strategic and transformation plans that strengthened her organisation's readiness and its ability to act before risks happen. She also leads work to improve performance and build a culture of excellence and innovation.

She is a graduate of the Leaders Programme and holds specialist Expert-level diplomas in:

- Strategy management and foresight
- Future scenario design
- Innovation strategy and design thinking
- Innovative knowledge management

SPEAKERS

- Proactive institutional excellence
- Integrated digital transformation strategy
- Talent management and the professional talent economy

She combines this executive experience with specialist training to advise organisations on transformation, empower leaders and teams, and build organisations ready for the future. She has received more than 14 medals and awards, locally and internationally, for her contributions to government development and institutional excellence.

Allan Bilek

Country Manager - GCC, Levant & East Africa

Seagate Technology

Allan Bilek is Country Manager for GCC, Levant and East Africa, responsible for developing and executing the regional sales strategy. He focuses on driving business growth, strengthening customer and partner relationships, and expanding the company's presence across these key markets.

Daniel Ford

Associate Director - Fire and Life Safety

WSP

Visionary professional with 16 years of experience in the fire and life safety industry while working across multiple projects across the region. Widespread understanding of developing fire strategies, through third party inspections, peer reviews and assisting facility managers operate large and complex buildings.

Dipl. Ing. Peter M. Hamel

Country Manager

Professional Stars Energy Services L.L.C.

An Energy Industry expert (Research, Nuclear, Oil & Gas, Mining, Waste Management) with 30+ years in Occupational Health and Safety and more than 18 years of experience in various Industry Fields in Oman. Essential in the development of National Occupational and OPAL Standards in Oman

SPEAKERS

Dr. Mohammad Mehdi Shirmohammadi

Director

Termeh Filtration Solutions FZ-LLC

Dr. Mohammad Mehdi Shirmohammadi is a filtration and respiratory protection specialist with over 15 years of academic, technical and commercial experience. He holds a Ph.D. in Textile Chemistry with research focused on filtration technologies, including nanofiber filtration, antimicrobial filtration materials, activated carbon and gas adsorption. He is Director of Termeh Filtration Solutions FZ-LLC in Dubai Science Park and an Ambassador of the World Filtration Institute (WFI). His current work focuses on respiratory protection, respirator selection and fit testing, air filtration, training and technical solutions for industrial, oil & gas and healthcare applications. He has contributed to several patents and peer-reviewed scientific publications and has delivered technical presentations at recognized international conferences and professional forums.

Dr. Salim Ali Al Harthi

Director

Technical Development for Trade & Investment (TDI)

Dr. Salim Ali Al Harthi is an Omani senior executive and HSE professional with more than 30 years of experience across the oil & gas and aviation sectors. He has held senior leadership positions in operations, HSE, integrated management systems and organizational development, including CEO Advisor and General Manager roles at Oman Airports. He led major HSE, ISO and Lean Six Sigma initiatives involving more than 1,400 employees. His doctoral research examined the relationship between HSE practices and organizational performance, including productivity, profitability, employee morale, regulatory compliance and safety culture.

Eng. Mohammed Saud Al Balushi

Head of HSE

Security & Safety

Eng. Mohamed Saud Al Balushi is an Omani HSE leader, currently serving as Head of HSE at Security & Safety Services Corporation (SSS). He specializes in strategic safety management, crisis and emergency management, critical infrastructure protection, and organizational resilience. He has led the implementation of integrated ISO management systems and oversees HSE operations across complex projects, major public events, and critical infrastructure. An internationally recognized innovation award winner, he has received gold medals at international exhibitions in Malaysia and Kuwait for an innovative oil pipeline flow assurance solution. As an accredited instructor and QHSE consultant, he is committed to advancing safety leadership, operational excellence, and sustainable risk management.

SPEAKERS

Ghaith Bakir

Senior Regulatory Engineer-MEA

UL Solutions

Ghaith Bakir, Senior Regulatory Engineer at UL Solutions, who provides regulatory support in the Middle East and Africa regions Working out of the UL Solutions office in Dubai, Ghaith provides technical expertise in regulations, codes, standards, and product installations related issues to assist regulatory authorities, consultants manufacturers, designers and contractors in resolving product acceptance and code compliance issues., Represents UL Solutions at AHJ and code development meetings by participating in code discussions and conducting technical presentations on code-related technical subjects, Plan, conducts and supervises code and regulatory related projects of major magnitude and scope.

Hafsa Al Balushi

Director of Spatial Strategy Department

Ministry of Housing and Urban Planning

Director of Spatial Strategy at the Directorate General for Urban Planning, Ministry of Housing and Urban Planning, Sultanate of Oman. She leads and manages strategic urban planning initiatives, focused on shaping sustainable, resilient, and well-integrated urban environments in alignment with Oman Vision 2040.

John Davison

Managing Director

F24 UK

John Davison is the Managing Director for F-24 UK Limited and is responsible for the recent growth and expansion of the business in the United Kingdom and the Middle East. With over 30 years' experience in working within the software and resilience services industries John is well positioned to utilise his vast experience in providing value led propositions.

Matthias Steinfert MIFireE, TlnSTR, Dip. JOIFF, CFEI / CFII

Instructor Specialist & Consultant

RelyOn Fire Academy

Matthias is an international fire and emergency services professional, instructor and consultant with more than two decades of operational, leadership and training experience across Europe and the Middle East.

SPEAKERS

Mathews Varughese

Regional Business Development Manager - META, CIS

KIDDE Global Solutions

Senior Business Development Leader with over 20 years of experience across Middle East Safety and Security Systems. Led regional growth, channel development, and business transformation for global brands like Philips, Bosch, Kidde, helping scale operations through consultant engagement, authority approvals, and distribution led goto market models. Currently involved in early-stage project influence — shaping specifications, securing regulatory acceptance, and positioning Fire alarm, Early Detection Aspiration Systems, Public Address/Voice Alarm and Mass Notifications systems before tenders exist. Currently focused on building the future pipeline for Kidde Global Solutions across the META, CIS regions.

Mohamed Aiyaz S I

Regional Sales Manager

AP Sensing GmbH

Mohamed Aiyaz is the Regional Sales & Support Lead for the Middle East and Africa at AP Sensing GmbH. In his regional role, he oversees Business Planning, Sales and Marketing, Sales Operations, His expertise spans B2B engagement, Direct Sales, Solution Selling, and Sales Presentations, ensuring strategic growth and customer success across diverse markets.

SPEAKERS

Mohamed Salaheldin

Head of Engineering
LIFECO

Mohamed Salaheldin is the Head of Engineering at LIFECO, leading engineering, R&D, product development, technical approvals, and training across the company's fire protection portfolio. With extensive experience in fire protection systems, he manages product certification and compliance with leading international standards, including UL, FM, LPCB, and NFPA requirements. Mohamed is an NFPA Certified Fire Alarm ITM Specialist (CFAITMS) and serves as a member of a UL Technical Committee. His expertise covers fire pumps, suppression systems, fire alarm and detection, valves, and other life-safety solutions, with a strong focus on developing compliant, reliable, and innovative fire protection products.

Muwada Al Aghbari

Fire Safety Engineer
Petroleum Development Oman (PDO)

Fire Safety Engineer at PDO with over five years of experience in fire risk engineering and emergency preparedness. Supports Technical Safety and HSE Case studies, Provides technical Fire Safety assurance and support across projects, operational assets, and hydrocarbon facilities.

Nasser Mohammed Said Al Harthy

Fire Officer
Petroleum Development Oman (PDO)

I am a Fire and Rescue professional with 21 years of experience in emergency response, fire safety, rescue operations, and operational leadership. Throughout my career, I have worked across various company locations and operational areas, including the North, South, and MAF, gaining extensive experience in diverse emergency-response environments. I am also an experienced Safety and Rescue Trainer, contributing to personnel development through practical training, knowledge sharing, and safety awareness. Beyond my professional role, I am a speaker and author in various fields. I am passionate about sharing knowledge, promoting safety, developing people, and contributing positively to professional and wider communities.

SPEAKERS

Rafah Salim Al-Mahrouqi

Fire & Safety Inspector
Petroleum Development Oman (PDO)

Fire and Safety Inspector at Petroleum Development Oman (PDO), where I have worked since 2024. I bring 5 years of professional experience as a Fire Engineer, with expertise in fire prevention, life safety, technical assurance, and regulatory compliance. Throughout my career, I have supported the inspection, evaluation, and improvement of fire protection systems and emergency preparedness arrangements. I am committed to protecting people, property, and business operations through practical engineering solutions, continuous improvement, and compliance with applicable standards. My work reflects professionalism, technical competence, and a strong safety culture across PDO facilities in Oman.

Salim Al Riyami

Lead Emergency Planning
Oman Airports

Salim Al Riyami Head of Emergency Planning at Oman Airports, with 20 years of experience across aviation, oil and gas, and hospitality. My expertise includes emergency planning, crisis management, fire safety, risk assessment, and regulatory compliance. A certified trainer in fire prevention and fire services, develops emergency response plans, coordinates exercises, and strengthens collaboration between operational teams and external agencies. Focuses on building practical response capabilities, supporting operational continuity, and improving organizational preparedness. Through my leadership, I'm promoting a culture of safety, resilience, and continuous improvement to protect people, infrastructure, and essential services during emergencies and crises.

Sultan Khalifa Said Alsaadi

Security & Access Control Team Lead
Sohar Port and Free Zone Company

Sultan Al-Saadi is a strategic security and risk management leader with a BSc in Emergency, Crisis & Disaster Planning from the University of North Texas. He currently serves as Security & Access Control Team Lead at Sohar Port and Free Zone, leading high-level port security initiatives and liaising with national security agencies including the ROP.

SPEAKERS

Syed Al Hasan

Head of HSES (Director)

Muriya Tourism Development - Orascom Development Holding

Syed Al Hasan is an HSE and safety leader with over 19 years of experience across the Middle East and India, currently serving as Group Head of HSE at Muriya Tourism Development and its subsidiaries in Oman. He leads HSE, fire and life safety, emergency preparedness, risk management and operational resilience across tourism, hospitality, construction, facilities management and marina operations. His expertise includes critical infrastructure safety, emergency response and crisis management, fire safety, incident prevention, safety governance and multi-stakeholder emergency coordination, with a particular focus on strengthening resilience within complex tourism environments. He holds an engineering degree, a Postgraduate Diploma and MBA in Safety Management, and is currently in the final semester of his PhD in Safety Management. He is also a certified Lead Auditor for ISO 45001, ISO 14001 and ISO 9001.

Waleed Al Mahrizi

Principal HSSE

OQ Alternative Energy

Waleed Al Mahrizi is an experienced HSSE professional with extensive involvement in emergency preparedness, crisis management, physical security, safety culture, and organizational resilience. He currently is a Principal HSSE at OQ Alternative Energy and has led and contributed to numerous emergency exercises, evacuation drills, HSSE awareness programs, and capability-building initiatives across corporate, government, and external organizations. His approach places strong emphasis on the human element of HSSE, particularly leadership, behavioral response, psychological safety, and effective decision-making during abnormal and emergency situations.

STRATEGIC PARTNER

شركة تنمية نفط عُمان
Petroleum Development Oman

Petroleum Development Oman

Petroleum Development Oman (PDO), Fire and Rescue Service (F&RS) is dedicated to ensuring the safety and protection of life, property, and the environment for all PDO operations. Their highly trained teams respond swiftly to emergencies, including oil and gas fires, hazardous material incidents, and multiple rescue operations. Equipped with modern firefighting technologies and rescue techniques, they play a vital role in maintaining a safe working environment across PDO's oil and gas fields, airports and facilities. They provide emergency cover from Mina Al Fahal in the north to Harweel in the south of Oman. This includes responding to serious road traffic accidents using specialized rescue equipment to free trapped persons and rescuing people from high structures using special rope rescue techniques. The fire teams have also conducted multiple rescues from wadis during severe flooding in some areas. PDO F&RS also provide Fire Prevention and HSE advice. In addition to the existing Aviation Fire Training Simulators at Marmul and Fahud Fire Training Centre's, a new Industrial Fire Training Centre has been developed at PDO Mina Al Fahal Fire Station, JOIFF accredited Industrial Training courses, will be available to other Oil & Gas providers in Oman and throughout the ME Region.

Seagate Technology

Seagate Technology (NASDAQ: STX) is a leading innovator in mass-capacity data storage, enabling organisations to harness one of their most valuable assets: Data.

With more than 45 years of technology leadership and approximately 30,000 employees worldwide, Seagate delivered over 789 exabytes of data storage capacity in FY26 to customers across consumer, cloud, enterprise and edge markets throughout the world.

Seagate's global footprint spans manufacturing, research and development, combining global reach with local expertise to deliver trusted data storage solutions, with storage platforms designed to meet the growing demands of data-intensive workloads driven by AI, cloud computing and digital transformation.

Seagate's advanced storage platforms help organisations manage, retain, and extract value from growing volumes of information. The company's breakthrough Mozaic™ technology platform, powered by heat-assisted magnetic recording (HAMR), has established a new foundation for scalable, cost-effective hard drive storage. Currently supporting capacities of up to 44 TB hard drives, with projected future capacity transitions enabling up to 100 TB, Mozaic empowers world-class data centres to expand storage capacity while maximising efficiency within data centre footprints.

Together with customers and ecosystem partners, Seagate is shaping the future of AI infrastructure by helping organisations harness the value of their data, fuel their transformation, growth and economic opportunity. Al Hosni Fire & Safety Maintenance Division has an integrated work team and that is to guarantee our competence and credibility, to achieve the highest level of quality and to keep our trust relationship with clients. Therefore, we guarantee the systems in operational condition in case of any emergency.

Emirates Fire Fighting Equipment Factory LLC (FIREX)

Established in 1983, Emirates Firefighting Equipment Factory LLC (Firex) began its operations in Sharjah, in the United Arab Emirates (UAE) with a commitment to innovate and manufacture quality firefighting products while providing world-class quality services. The founder, Engineer Jamal Hussein saw the great need for fire safety in the rising buildings in the country. As one of the most respected engineers in the industry, Engineer Jamal Hussein had set high standards in the construction business. Engineer Jamal Hussein was one of the leaders for constructing many government buildings that still stand to date. Engineer Jamal Hussein demanded nothing less for safety and decided to create a company that would match the high standard he had set. Firex was awarded an ISO 9001-2000 Certificate of Approval in 2002 and has won many more awards emerging as one of the top leading manufacturers of Firefighting Equipment in the Middle East. Firex provides various fire safety and firefighting equipment and systems that include custom-made vehicle such as fire trucks, ambulances, mobile maintenance vehicles as well as fire alarms, firefighting skids, fire pumps, voice evacuation systems, emergency light systems, fire rated cables, fire doors, foam systems, smoke and ventilation systems. Since establishment, Firex has expanded to become one of the largest professional companies in the field of Fire Fighting Industry in the Middle East region. Firex has expanded and holds a strong international presence. Firex now has become the go-to solution for tailor-made solutions for today's fire safety and firefighting needs and offers high quality international standard products. Firex caters for markets in the MENA region as well as other international markets. With high-quality products and high standards in customer service, Firex has established great business operations and now operates globally with capacity for any sized project. To inquire about any product or services please visit our contact page and leave us a message. One of our agents will be in contact with you as soon as possible.

Horizon Axis is presenting Brandsdaddy Automatic Fire Extinguishing (AFE) Capsules, an automatic fire suppression solution designed to provide an early response to fire without the need for manual activation.

EXHIBITORS

The compact AFE Capsule uses a direct fire/flame-sensitive activation system to release ABC dry chemical extinguishing powder when exposed to a fire, helping to control the fire at an early stage and reduce the risk of escalation.

The AFE Capsule can be considered for a wide range of applications, including electrical and control panels, machinery, generators, vehicles, kitchens, warehouses, commercial facilities and other enclosed or equipment-specific areas.

Horizon Axis provides product representation, technical coordination and customer support, working with businesses, institutions and organisations to understand their requirements and identify suitable applications for automatic fire suppression solutions.

ID Vision Trading LLC

ID Vision is a UAE-based technology distributor, supplier, and systems integrator specializing in identity, access, security, identification, and AI-enabled technology solutions.

We provide solutions across physical and digital access control, biometric authentication, smart identification, secure credential technologies, AI-based software & intelligent security applications for enterprise, government, institutional, and critical-infrastructure customers across the Middle East, Africa, and Asian markets.

ID Vision bridges the gap between global technology manufacturers and regional operational requirements, combining a strong portfolio of international technology brands with expertise in solution design, system integration, software development, AI-enabled applications, deployment, technical support, and post-sales services.

Our AI and software capabilities help organisations automate processes, enhance security, improve operational visibility, and enable data-driven decision-making, while integrating seamlessly with existing technology environments.

We work closely with manufacturers, system integrators, consultants, and end customers to deliver secure, scalable, interoperable, and practical technology solutions tailored to real-world requirements.

ID VISION — We make identity trusted and access effortless.
